LEBOHANG MOFOKENG

FULL STACK DEVELOPER | FINTECH INNOVATOR

P 071 041 6807 E Lp.mofokeng96@gmail.com G GitHub W Portfolio

PROFESSIONAL SUMMARY

Highly passionate Full Stack Developer with over a year of experience specializing in financial technology innovation. Proven track record in delivering scalable and reliable fintech solutions using Angular, .NET 8, and Java Spring Boot. Adept at rapidly adapting to emerging technologies like Docker and Svelte, thriving in Agile, cross-functional environments, and driving innovation through rapid prototyping and high-impact software development.

PROFESSIONAL EXPERIENCE

Full Stack Developer
Absa group | Oct 2025 - Current

- Assisted the team to clear the backlog at x2.5 speed
- Developing front-end features using Angular and PrimeNG
- Designing and implementing efficient REST APIs
- Troubleshooting, debugging backend and front-end (planned and unplanned)
- Contribute to code review and collaborative development
- Contribute to documentation and deployments of the system
- Adding new features to the system

Junior Developer
First National Bank (FNB) | Mar 2024 – Feb 2025

As a Junior Developer at FNB, I contributed to the modernization of critical banking systems and enhanced software functionality within an Agile environment.

- **Quality Optimization:** Corrected, modified, and upgraded software to enhance functionality
- **Agile Collaboration**: Participated in sprint planning and code reviews
- **Full-Stack Development**: built java spring boot APIs and angular frontends for banking applications

EDUCATION

IT - Software Development, Tshwane University of Technology
Matric, Tiisietsang High School

CERTIFICATIONS

- OCA: Java SE 8 Programmer I
- Git & GitHub (Advanced)
- Microsoft Azure (AZ900)
- UI/UX Design with Figma
- Microsoft SQL for Beginners
- Linux Mastery
- Practical Solution Architecture

TECHNICAL SKILLS

- **DEVOPS** Azure, Ci/Cd, Git/GitHub
- **DESIGN & ANALYTICS** Figma, Power Bi
- **FRONTEND** Angular 19, Svelte, Typescript, Tailwind CSS, Bootstrap, Html5, CSS3
- **BACKEND** Java Spring Boot, .Net 8, C#, C++, NODE.JS, Restful APIs
- **DATABASE** ORACLE PL/SQL, SQL SERVER, MYSQL

- **Modernization**: upgraded legacy systems using .net 8 and svelte, improving performance by 40%

Full Stack Developer Intern
CapaCITI | Sep 2023 – Feb 2024

As a Full Stack Developer Intern at CapaCITI, I developed user-centric web solutions and data visualization tools to enhance client engagement.

- Developed user-friendly web forms with validation/error handling using bootstrap 5
- Created optimized landing pages with cross-browser compatibility
- Built data-driven dashboards via power bi for client analytic

System Development Intern
Dynamic DNA | May 2022 – Apr 2023

As a System Development Intern at Dynamic DNA, I focused on developing and optimizing web applications forperformance and security.

- Developed MVC systems using C# and Ms SQL
- Optimized web applications to enhance security and scalability, implementing best practices to protect sensitive data and improve system performance.
- Demonstrated adaptability by mastering new technologies and frameworks within tight deadlines and contributing effectively to project timelines.

SOFT SKILLS

- **Problem-Solving**: Resolved critical bugs ensuring maximum uptime
- **Adaptability**: Mastered Docker/Svelte within 3 weeks
- **Collaboration**: Enhanced team productivity via Agile
- **Initiative**: Proposed feature enhancements from user feedback

KEY ACHIEVEMENTS

- Reduced code redundancy by 30% through .NET 8/Svelte refactoring
- Boosted user engagement by 25% through dashboard optimization
